

Contracting & Engineering Company

RC PATEL

Competence • Excellence • Commitment

Overview

“The thing that keeps a business ahead of the competition is excellence in execution.”

As one of the leading civil, electrical and mechanical contractor, R C Patel (Engineers and Contractors) has been delivering excellence in engineering services for the past three and a half decades. With a proven track record of on-time delivery, safety consensus, highly experienced team, top class contractor certifications and expertise in liaising with relevant authorities, the Company is committed to provide world-class quality across turn-key projects. With a strong legacy of professionalism and a culture of integrity, R C Patel (Engineers and Contractors) has grown into a preferred partner to its clients.

About Us

From its inception in 1986 as a humble civil works company to its expansion into Gujarat's most reputed turn-key engineering contractor, R C Patel (Engineers and Contractors) has come a long way. Inspired by the founder's vision and driven by strong business ethics, innovation, excellence in execution, customer delight and national pride, the Company strives to enhance lives through its top-quality engineering and construction services. RC Patel has provided superior services and solutions in most challenging situations.

A preferred partner for turn-key projects, the organization commands dominance in Water Supply Pipeline, Underground Drainage/ Effluent Pipeline, R.O.U of Cross Country Pipe Line, ROW Cadastral/Engineering Survey. Today R C Patel (Engineers and Contractors) has several landmark projects of civil infrastructure, construction of ESR & U.G. sump, river & canal intake structures, reservoir, construction of pump house, SITC of pumping machineries, construction of roads and water treatment plant to its credit.

In-house capabilities and infrastructure for ROU & ROW which includes technical expertise, experienced & skilled manpower, required machineries and more. We undertake execution of projects right from collection of data, verification, validation, acquiring ROU/ROW and necessary documentation.

Right Of Use (ROU)

- PMP Act
- GIDC Act

Right Of Way (ROW)

- Obtaining Statutory Clearance
- Liasioning for obtaining NOC

Drainage/ Effluent Pipelines

Pipeline networking using GRP, HDPE, PSC, DI, MS, Hume Steel, A.C., RCC, PVC, GSW and other diverse materials

Diameter from 20 mm to 2800 mm

Piping for heavy industrial plants, industrial estate, networks, cross country pipeline

Laying of pipeline under railways, highways, canals and crossing of service lines by pipe pushing method

Water Tanks, Reservoir and Distribution Network

R C Patel (Engineers & Contractor) is a trustworthy partner in the construction of complete Water Distributing Network. Due to virtues of the design capabilities, construction process, architecture, civil and structures engineering, the company has constructed Reservoir, Overhead Tanks, Underground Sumps. In addition to construction, R.C Patel has expertise in managing comprehensive site construction, right from bidding tenders to execution and related procedures.

The entire site and project execution is organised and supervised by RCP's able site team which is highly capable with the project management, constantly monitoring quality, budget and time. Special attention is given to quality and safety. Right from team mobility to completion, all the necessary compliance and guidelines are followed at every step.

Underground Sump, Pump/ Panel Rooms, Pump Main and S.I.T.C. of Pumping Machinery

RC Patel offers comprehensive Engineering, Procurement and construction (EPC) services which includes Electro-mechanicals projects including Supply, installation, testing and commissioning of pump-motor set, panel, switchyard, power, lighting, Instrumentation, cable laying, earthing, header line, motorized valve with SCADA automation for Water/ Effluent pumping station.

Projects Gallery

1000 MM HDPE ready with anchor blocks for offshore work

Launching of 1000 MM HDPE

Laying of 1000 MM HDPE

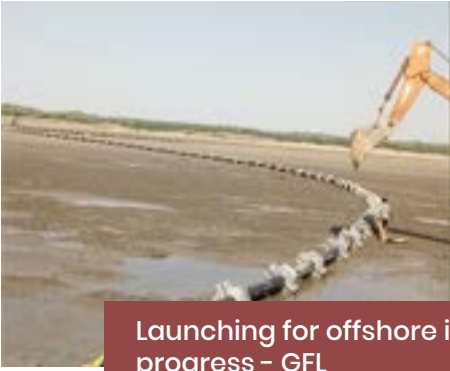

Heating process for bid forming

Butt fusion welding
710 MM HDPE

Finished HDPE pipe joint - 710 MM

Launching for offshore in progress - GFL

Temporary HDPE diffuser for GFL project

DWC Pipe with manhole

Reservoir for Jubilant Life science, Vilayat - Dahej

SITC Of Pumping Station with panel and instrumentation

OHT with 18 Lakh lit. capacity with pump house & transformer room

16 Lakh lit. capacity underground RCC sump with pumphouse

Major Clients

R C Patel Edge

Visionary Top Management

Construction is not only about mortar and steel; it is also about the client's dream and purpose. The highly qualified engineers & managers of the Company are equally adept in advanced construction techniques and seamless customer services and help transform blueprints into landmark structures.

Qualified and Experienced Execution Team

The foresight of our leadership is matched by our highly skilled execution team. R C Patel (E&C) constantly invests in training and development to maintain the quality of its trained on-ground staff and ensure strict professionalism. Technical proficiency and superior quality execution with onetime competition are the virtues of our team.

Learning from the Leaders

As industry front-runners R C Patel (E&C) is constantly on the lookout for industry best practices. The Company learns from the best and embeds these into its own project planning, execution, monitoring and delivery to ensure excellence.

Sustaining from Self

Being a small enterprise offers advantages of agility, cost-effectiveness and flexibility. Even while growing, R C Patel (E&C) has retained these qualities that enables it to adapt to the need of clients and respond to emergent needs of the projects.

Technological Upgradation

To stay ahead of the curve, RCP (E&C) constantly invests in upgrading its construction technology, machinery & equipment. This results in maintenance of top-quality and on-time delivery of projects of varied scale and scope.

Assets

- Skilled and proficient human resource
- Modern Machinery
- Well developed and equipped office and site infrastructure
- Financial independence
